

Dräger CDR 4500 Full Face Mask

The Dräger CDR 4500 full face mask provides together with a suitable respiratory filter an approved combination specially developed for use in civil defense and civil protection.

Benefits

Civil defense protection

The full face mask CDR 4500 provides proven protection for civil defense. It can be used with our large variety of respiratory filters such as the A2B2E2K2-P3/NBC filter, available in black and silver.

Approved in accordance with NIOSH CBRN and EN-Norm

The full face mask has an approval in accordance with the NIOSH CBRN standard in combination with the Dräger CBRN CAP 1 filter as well as a European approval in accordance with EN 136 Cl. 3 in combination with the Dräger A2B2E2K2-P3/NBC filter.

Available in various sizes

The full face mask is available in different versions and sizes. The components are designed for the special command in matt black to reduce reflections to a minimum.

Continuous high level of wearing comfort

The double sealing frame and the centrally located filter connection guarantee a high level of wearing comfort. The safe and free from leakage fit of the CDR 4500 offers a high level of safety to the wearer.

Large field of view and anti-scratch coating

The high quality lens with anti-scratch coating ensures a large undistorted field of view and offers improved mechanical & chemical resistance.

Good voice communication

The integrated speech diaphragm supports a clear voice communication.

Standardised round thread connection

The filter connection is via a centrally located standard Rd40 (EN 148-1) round thread.

Technical Data

Dräger CDR 4500 full face mask

Mask as a whole	High chemical resistance according to EN 136, resistance even against warfare agents (to US NIOSH CBRN standard). High ageing resistance
Mask body	Silicone-free elastomer
Sealing frame	Double seal with triple sealing line for comfortable, tight fit
Visor	Impact-proof polycarbonate (PC) with anti-scratch coating on both sides for high chemical resistance Large field of vision and excellent quality of vision
Filter connection	Standard thread to EN 148-1
Weight	Approx. 500 g (without filter)
Harness	5-point (large adjusting points to prevent trapping of hair)
Neck strap	As standard
Speech diaphragm	Stainless steel, high speech quality
Resistance	To US CBRN APR standard against sarin and mustard gas for up to 8 hours.
Approvals	US NIOSH CBRN standard (TC-14G-0286), EN 136 Cl. 3, CE mark
